POSITIVE HEALTH REVOLUTION

Revolution: *noun . . .*A fundamental change in the way of thinking about or visualizing something: a change in paradigm.

FACTS:

1. The newest medications fight disease at the cellular level but come with a cost.
2. High lipids (fats in your blood), higher cardiovascular disease risks and inflammation can result in unhealthy outcomes.
3. Obesity, muscle loss and fat gain not to mention altered focus, concentration and mood issues all can result from the disease directly or from the medications which are used to control the virus.
4. Antioxidants, vitamins, herbs, hormones and good nutrition coupled with exercise makes good sense for improving your health.
